36" Raw Water Gravity Main River Crossing Repair

The City of Lynchburg intends to award the repair of the Pedlar Gravity Line break under the James River to Crofton Diving, 16 Harper Avenue, Portsmouth, Virginia, 23707. Based on the City's prior experience with Crofton on a recently completed project and their knowledge of the water system, Crofton was requested to locate the James River break and assess the damage. This was completed and a damage report was submitted on November 2, 2010. Due to the urgency of this repair, as well as Crofton's ability to mobilize and begin work on the repair immediately, it has been determined that it is in the City's best interest to proceed with Crofton as a sole source provider. The estimated cost of this project will be \$322,450.00, excluding materials.
